This burner features enough power for most projects and is preferred by most carvers. Two year warranty.

3401 Super Pro Package \$192.00

The Super Pro Deluxe Woodburning Kit>

is a must for the serious woodcarver or woodburning artist. This professional kit contains: Super Pro Control Unit, deluxe wood carrying case, 2 replaceable tip handles, 9 of our most popular replaceable tips (B,C,D,J,S,MC,C1,MR,K) & EZ Tip Puller.

3401D Super Pro Deluxe Kit \$246.00

<Galaxy Woodburning Kit Award winning wildlife art is burned lightly and consistently. The burn should be a nice “toast-like” hue. Charred wood is usually the sign of a coarse burn lacking fine detail. Therefore, the successful artist requires a tool that provides steady power in order to

produce a burn that does not fade or become too dark. The Galaxy’s digital display, 55 distinct temperature settings, and unique circuitry that compensates for fluctuations in line voltage promote this process. One ultra-flex handpiece cord (18 gauge), separate on/off switch. Five replaceable tips (B, C, D, J, S) and replaceable tip handle.

Colwood Ball Stylus Tips The ball stylus are great for cursive writing, lines, burning on miniatures. It glides over the wood to make writing with this tool a snap. Because of it's small size, it is soldered to the tip rather than having a wire through it. Extra caution needs to be taken when using these tips, they stay hotter longer after they are unplugged, up to 5 minutes. All ball tips require a longer warm-up time and cool-down time.

^Wood Carrying Case

Room for one control unit from Colwood, up to 11 replaceable tips in their containers and an additional removable tray for accessories.
